

M/Y GTT 135

The GTT 135 is the second-generation model in the Dynamiq range of fast family cruisers that was introduced with 39m Jetsetter in 2017. Built on an efficient and comfortable, round-bilge platform, the all-aluminum yacht can reach a top speed of 21 knots with a transatlantic range of 3,000nm at 12 knots. The new GTT 135 is half a meter wider and more than a meter longer than the previous model but has retained a shallow draft of just 1.8m (just over 5.9 feet), which is ideal for the cruising the Caribbean, Mediterranean or Asian islands. With the largest sundeck in her class, exceptional ceiling heights and five voluminous cabins for ten guests, along with engineering and hydrodynamic design by leading Dutch naval architects, the new GTT 135 is the perfect implementation of superyacht quality and comfort in a relatively compact package.
